CASE STUDIES

A RITE-HITE CASE STUDY SPECIAL

We all know that experience is the best teacher. And sure, you can learn from your own experiences, good or bad. Learning from others in the industry is also an effective way to add to your knowledge.

The following 3 case studies address some of the top challenges companies face today. We invite you to dig in and see what solutions you can discover for your own facility.

Containing the Cold

When the Food Safety Modernization Act (FSMA) was signed into law in 2011, one area of focus for Sartori Cheese was the loading dock environment. According to FSMA, docks can be a high-risk zone for...

Increase Productivity, Decrease Temperature

Hansen Storage's freezers store a variety of products, such as meat, fish and poultry, and range in size from 10,000 to 20,000 square feet. The management team sought to keep 50,000 square feet of freezer space cold despite...

Safety on all levels.

As companies look to maximize existing space within their facilities, many are turning to mezzanines, elevated work platforms, or multi-level racking systems to create additional storage space or work areas for employees.

This global distribution center recently installed Rite-Hite **GateKeeper Barrier Systems** on every floor of their facility to help ensure full-time safety at the edge of each mezzanine.
